- Valve disease

**Hosted by:**

Guy's and St Thomas'  
NHS Foundation Trust

King's College Hospital  
NHS Foundation Trust

St George's University Hospitals  
NHS Foundation Trust

### Submit

Referring clinicians submit their patient cases, images, and supporting information.

Urgent cases can be discussed on the day, even if not previously submitted.

### Click

A specific URL links participants through Microsoft Teams, allowing MDT discussions to occur wherever you are, even when mobile.

### Join

Secondary and tertiary colleagues join the daily MDT to review each patient case. This allows the referrer to advocate for the patient, as the one closest to their care. To share urgent cases not pre submitted, simply join and share your screen.

### Action

An immediate decision is reached, allowing the patient to get the care they need faster.
