

# Do you have a patient that is over 65 years old with a heart murmur?

The Lewisham community valve clinics are accepting referrals for patients who meet the referral criteria and require an echocardiogram.

## Referral criteria:

- Over 65 years old
  - With a heart murmur
- +/- cardiovascular symptoms (e.g. shortness of breath, dizziness, chest pain)

The clinics are held in **The Waldron Centre** in New Cross, every Tuesday. They are run by a Clinical Nurse Specialist and an Echophysioiologist. If the patient is found to have valve disease, they will be directly referred on to the King's College Hospital heart valve service for further investigations.

## Referrals will be received through eRS
