

# Are you between 10 and 24 years old?

## Do you have sickle cell disorder?

- ✓ Do you live in South East London?
- ✓ Are you registered with a local GP?
- ✓ Are you receiving care from the NHS?

### Join our new children and young people's mentoring programme to get the help and support you need!

This new programme by the Sickle Cell Society will connect you to a mentor from your area who also has sickle cell disorder.

Your mentor can help you with support, guidance, and advice about sickle cell:

- Understanding and managing your condition
- Transitioning from child to adult services
- Getting involved in your local community.

Ask your nurse, doctor, or parent / guardian to fill out our form to register your interest on <https://bit.ly/sickle-cell-mentor> or the QR code on the right.

To learn more, email [mentors@sicklecellsociety.org](mailto:mentors@sicklecellsociety.org).
